Description: **DYMO ID1 - Industry tape D1_**
Lapp code: Lapp 61800266

The **Test voltage** of the cable Lapp 61800266 is /.
/

Product Make-up

- Permanent polyester tape:
  Ideal for heavily-textured and powder-coated surfaces where extremely good adhesion and a long service life are required; for identification of junction boxes, buttons and patch panels.
- Flexible nylon tape:
  The permanent adhesive connection and a high-quality Nylon material provide the ideal solution for permanent and legible labelling. Particularly suited to cable labelling.
- Coloured vinyl strips:
  The permanent adhesive connection; a flexible coloured vinyl; and a tape that is resistant to UV, oil, scratches and solvents; provide the ideal solution for every type of labelling. For indoor and outdoor applications. Ideal for warning and safety markings and for cable labelling.
- Shrink tube tape:
  For single core and cable labelling. The combination of shrinking tube and special coloured tape gives a smudge-proof and scratch-proof lettering which is resistant to solvents, oils and UV light.
- Non-adhesive insert label:
  Ideal as an insert for label-holders (e.g. PTEF/ CAB), attached to the cable by a cable tie. Material: polypropylene
