Norm references / Approvals

- Flammability class: UL 94 V-2/polyamide 6.6
- Flammability class: UL 94 HB/polypropylene

Note

- Storage requirements: nylon (polyamide) is, by its nature, susceptible to external influences. Cable ties are mechanically moistened in order to ensure optimal use. As such, they must be stored in a cool, dry location and must not be exposed to direct sunlight. Cable ties are packed in plastic bags to retain moisture; these should remain closed until the cable ties are used.

Technical Data

Colour delivered	Blue
Material	Polyamide 6.6 or polypropylene
	Halogen-free and silicone-free
Temperature range	-40°C up to +85°C
