

TC 121 plug socket for fastening cable ties

Product description

Application range

- Fastening elements for cable ties
- The quick and safe mounting method makes these plug-in sockets ideal for applications in control cabinet manufacture, household appliances, motor vehicles and office equipment.

Benefits

- The plug-in socket has two openings for two different cable-tie sizes, while the plug nose and low height allows for flexible use.

Design

- For cable ties: 2.8 / 4.8 mm
