

Uninsulated cable lugs/solderless terminals according to DIN 46234, high-quality electrolytic copper for good conductivity, least resistance

Product description

Application range

- For cables with category 2,5 and 6 conductors
- Manufacturing of control cabinets and equipment
- Trains and buses

Benefits

- For first-class connection with simple operating principle
- Thus providing the best electrical conductivity (least resistance)

Norm references / Approvals

- In accordance with VG 88710
- Coil form DIN 46234, non-insulated

Note

- For processing tools see the keyword index "crimping pliers for other connections"

Technical Data

Note

Material

Temperature range

s = thickness of material

High-quality electrolytic copper for good conductivity

Max. temperature: +120°C (short-term)
