

Insulated conductor end sleeves for short circuit cables up to 3 kV, For cables with thick insulation

Product description

Application range

- For cables with thick insulation
- Special conductor end sleeve model with large plastic collar for thick insulation cables (e.g. NSGAFÖU).
- Suitable for unprotected connections on control and distribution panels, rail vehicles, solar systems, ignition cables etc.

Benefits

- Thicker insulation and greater wall thickness for higher loads
- Suitable for all short circuit and earth fault-resistant cables up to 3 kV due to enlarged insulation sleeves

Note

- For processing tools see the keyword index "crimping pliers for conductor end sleeves"

Technical Data

Material	Copper/PP
	Surface: tin-plated
Temperature range	-5°C to +105°C
