

Insulated panel connectors (type M T and V), UL approved, with Easy Entry Funnel Shape of the plastic sleeve

## Product description

### Application range

- For breaking through the oxidation layer on the conductor when crimping

### Benefits

- For first-class connection with simple operating principle
- Hard-soldered cable lug that can be pressed in any position
- Thus providing the best electrical conductivity (least resistance)
- No risk of bent and crushed cables

### Design

- For higher tensile strength
- For good strength and improved current conduction
- Flat receptacle material in contact pressing is double-folded and hard-soldered
- EASY-ENTRY funnel shape of the plastic sleeve enables simple, fast and safe insertion of the conductor
- 1 = push-on female terminal, type H
- 2 = push-on piggyback terminal, type T
- 3 = push-on male terminal, type M
- 4 = push-on female terminal (fully insulated), type V

### Norm references / Approvals

- File Number E334111, see table

### Technical Data

Material

Nickel-plated brass

Temperature range

Polycarbonate insulation

-40°C to +100°C
