

WT 3195 G: Hydraulic Pressing Pliers for cable lugs and butt connectors, 6-95mm<sup>2</sup>, crimping profile: mandrel pressing, ratchet principle

## Product description

### Application range

- The high-performance pressing pliers for tube and compression cable lugs of 6 - 95 mm<sup>2</sup>

### Benefits

- One-hand operation possible by attaching the pliers to the workbench
- Reliable pressings due to the long lever and good transmission
- Settings for tube cable lugs (RK) and compression cable lugs (QK) are displayed on the pliers
- Safety system with built-in emergency release

### Product Make-up

- Mechanical pressing tool with ratchet system
- Cross-section range: 6 - 95 mm<sup>2</sup>

### Norm references / Approvals

- Tested in accordance with DIN/SEN/BS/MIL-SPEC/UL standards

### Product features

- Adjustable screw with fine threads for precise positioning of the press area

## Technical Data

Note  
Info

Maximum pressing pressure: approx. 130 kN  
Cross-section range: 6 - 95 mm<sup>2</sup>  
Crimping profile: Mandrel pressing
