

Dismantling and stripping tool for sensor cables and conductors, also for PUR outer sheathings, made in Germany

Product description

Application range

- PUR halogen-free sensor/actuator cables
- Highly flexible TPE-U-cables
- PUR-cables
- PUR/PVC-cables
- multi-stranded cables, shielded and non-shielded cables

Benefits

- Focussed to the needs of stripping the sheathing of sensor / actuator cables
- With their new blade design the tools strip PVC / PUR cable sheathings precisely from cables without causing damage to the individual conductors or shielding inside
- Fully automated adjustments to the diverse cable diameters
- Push-through opening inside handles- to strip any lengths
- Ergonomic design- user friendly, ease of use, lightweight

Product features

- Exchangeable blades-longer lifetime, efficient

Technical Data

SENSOR STRIP stripping tool

Diameter in

Sensor Mini: For outer diameter: 3,2-4,4 mm

Length

Sensor Special: For outer diameter: 4,4-7 mm

Overall dimensions: LxHxB 16,6x2,8x10,2 mm
