

Stripping tool for cable diameters up to 40 mm, interchangeable hooks, reliable and durable, also for problematic insulation as PTFE, TPE, Fluoropolymere and PUR

- Special polished stripping knives suitable for problematical insulation materials such as PUR, fluoropolymers, glass fibre, TPE

Product description

Application range

- Adjustable stripping tool for round cables made with various insulation materials
- Professional stripping tool for cables of all insulation types
- The unique cable retention hook for this type of tool gives STAR STRIP an unmatched cable stripping capacity of up to 40 mm using a single tool

Benefits

- Economical: spare blades are available and can be kept in a box on the tool
- User-friendly: Specific locking positions for circular, longitudinal or spiral cuts. The blade automatically returns to its start position at the end of a stripping process, thus reducing the possibility of breaking the blade. No special tool is required to replace the hook, and the height of the blade is adjustable.
- Large capacity: with the interchangeable hook, STAR STRIP can replace two or more comparable products
- Robust: tested for more than 100,000 stripping operations
- STAR STRIP fits in your hand comfortably and is user-friendly

Product features

- Through the various interchangeable hooks, the STAR STRIP can be used for cables with a diameter of 4.5

STAR STRIP stripping tool

- 25 mm and 20 - 40 mm
- Suitable for circular, longitudinal and spiral cuts

Included

- 61735820: Tool with die, small and large hook without spare die
