

The PKG shrink tube with adhesive coating inside offers a good chemical resistance and high weather-resistance. The shrink ratio is 3:1.

Product description

Application range

- Particularly suitable for corrosion and damp protected casings as well as highly contoured components

Benefits

- Good chemical resistance
- High mechanical stability
- Good weather-resistance
- High shrink ratio and adhesive coating

Product features

- Adhesive lining bonds to plastic, rubber, neoprene, steel and polyethylene
- UV-resistant

Included

- Plastic bag with 0.6 m units

Technical Data

General

Note

Info

Colour delivered

Material

Temperature range

Double-walled

Dielectric strength: 15 kV/mm

Shrinking ratio: 3:1

Black

Cross-linked modified polyolefin, with thermoplastic adhesive coating inside

Silicone, Cadmium and Lead free

-55°C to +110°C

Shrinking temperature: > 100°C
