

CMP shrink tubing is particularly interesting for the North-American market due to various approvals as CSA and UR. The shrinking ratio is 2:1.

Product description

Application range

- General purpose, flexible heat shrink tubing for protection, insulation and bundling

Benefits

- Very flexible, UL 224 flame retardant thin-walled heat shrink tubing with excellent physical and mechanical properties
- Approved for the use in North America and Canada

Norm references / Approvals

- UL 224 approval

Note

- Not resistant against engine oils

Product features

- UV-resistant

Included

- Plastic bag with 1.22 m units
