

TI is an universal self-amalgamating electrical tape which protect against corrosion, ageing and chemicals.

Product description

Application range

- Insulating tapes and self-amalgamating tape
- For sealing of transition points where water shouldn't enter
- For bundling several wire harnessings (e.g. automotive industry)

Benefits

- Protects against corrosion
- Non-aging
- Chemical resistance
- Not self-adhesive, no residues
- Wide temperature range for applications in harsh climatic environments

Technical Data

TI insulating tape

Colour delivered	White
Material	Non-adhesive fluoropolymer tape
Temperature range	-160°C to +250°C
