

- CAT.6A qualified for 10Gbit/s

Product description

Norm references / Approvals

- Acc. to standard IEC 61076-2-109
- Meets the requirements according to CAT.6A, ISO/IEC 11801 and EN 50173

Product features

- Field assembly Industrial Ethernet flange, M12 "X"-coded according to IEC 61076-2-109
- Designs for front and rear wall-mounting
- M12 panel feed-throughs for direct connecting with PCB
- Can be used for Industrial Ethernet in harsh industrial environments
- Housing: zinc die-casting, grey
