

4-pos. Sensor/actuator cable in Hygienic Design with M12 thread and high grade stainless steel (V4A)

## Product description

### Application range

- Food and beverage industry
- Automation technology
- Mechanical engineering
- Plant engineering

### Benefits

- Hygienic Design for ideal cleaning results
- Guaranteed density by meeting the highest protection class
- Stainless steel knurl to ensure protection against corrosion
- Bright colors to detect contamination quickly
- Standardised interfaces

### Product Make-up

- Design: 4 x 0.34 mm<sup>2</sup> (42 x 0.1 mm)
- Core colours: brown(1), white(2), blue(3), black(4)
- Outer sheath: TPE, halogen-free
- Outer sheath colour: grey RAL 7035

### Product features

- 4-pin connectors with M12 thread to free conductor end
- Hygienic Design
- Stainless steel knurl (V4A)

### Technical Data

Coding	A-Standard
Gripping body material	PP
Contact surface material	Ni/Au
Contact material	CuSn
Knurl material	Stainless steel
Protection rating	IP65/IP67/IP68/IP69K
Ambient temperature (operation)	Plug/socket -40°C to +105°C Cable, fixed installation -40°C to +105°C
