

Circular connectors for Servo Cables and encoders

Housings are very flexible - cable connectors with wide clamping range, receptacle housings for assembling the inserts from the front and rear; Harnessed insulation body can easily inserted from back side in already mounted housing

- For use with convex surfaces like encoders and spindle drives

Product description

Application range

- Plant engineering
- Servo drives and servo assemblies
- Measurement and control technology

Benefits

- Housings are very flexible - cable connectors with wide clamping range, receptacle housings for assembling the inserts from the front and rear
- Harnessed insulation body can easily inserted from back side in already mounted housing

Technical Data

Material

Housing: nickel-plated zinc die-casting

Sealing: FPM

Protection rating

IP68 (10h / 1m)

Temperature range

-25°C ... +125°C

VDE-tested

Certified production control: VDE-REG. no. C24

(according to EN 61984, SELV according to DIN VDE 0100-410 has to be guaranteed)

UL File Number: E249137
