

## Inserts for M23 circular connectors

Inserts with solder pins at the connection side for soldering in PCB boards. Ideal in combination with M23 housings of type B1/B2 for rear wall-mounting.

- With solder pins for PCB boards
- Only for housing type A1, B1, B2

## Product description

### Application range

- Plant engineering
- Measurement and control technology
- Apparatus construction

### Benefits

- Inserts with solder pins at the connection side for soldering in PCB boards. Ideal in combination with M23 housings of type B1/B2 for rear wall-mounting.

## Technical Data

## EPIC® M23 Inserts 17 pole PCB-soldering

---

Rated voltage (V)	according to IEC 61984: 50 V
Rated impulse voltage	0,8 kV
Rated current (A)	7:00 AM
Contact resistance	< 4 mOhm
Contacts	Gold-plated brass
Number of contacts	17
Termination methods	Solder pins with Ø 1.0 mm for PCB soldering. Pin length from rear edge of housing B1/B2: 4 mm
Cycle of mechanical operation	100
Temperature range	-25°C ... +125°C
Degree of soiling	3
