

The mixed assembly guarantees high flexibility. For applications in mechanical and plant engineering, for printing machines and slide-in technology.

Uninterruptible fieldbus operation when pulling the connector; Transmission rate up to 12 MBit/s; Easy assembly by screw connection; Shielding connection by strain relief

- Profibus DP module for uninterruptible fieldbus operation

Product description

Application range

- Plant engineering
- Light & sound technology
- Control engineering

Benefits

- Uninterruptible fieldbus operation when pulling the connector
- Transmission rate up to 12 MBit/s
- Easy assembly by screw connection
- Shielding connection by strain relief

Technical Data

Rated voltage (V)	30 V
Rated current (A)	1:00 AM
Contacts	Copper alloy, gold-plated
Number of contacts	2 / 4 + shield
Termination methods	Screw termination: for Profibus cable
Cycle of mechanical operation	100
Temperature range	-20 °C ... +85 °C
Degree of soiling	3
