

#### Housing H-B ULTRA: for higher functional reliability

Optimum, low-resistance 360° screening; All-purpose due to high corrosion resistance and high environmental protection; Space-saving due to compact dimensions; Faster than any other comparable system; High mechanical resistance

- EMC protection
- Corrosion-resistant
- SKINTOP® integrated cable gland

# **Product description**

## **Application range**

- In EMC-sensitive environments
- For fixed and flexible applications (e.g. machinery building, wind turbines)
- · Construction machinery
- · Electric motor manufacturing

#### **Benefits**

- Optimum, low-resistance 360° screening
- All-purpose due to high corrosion resistance and high environmental protection.
- Space-saving due to compact dimensions
- Faster than any other comparable system

### **EPIC® ULTRA H-B 6 TS LB**

• High mechanical resistance

#### **Product features**

- · Housings with the BRUSH addition come with BRUSH cable screen contacting
- Pluggable with standard housings
- Corrosion-resistant according to DIN EN 6988
- Resistance to cyclic salt spray is tested according to IEC 68-2-52, severity level 2
- Salt spray testing according to DIN EN ISO 9227, method NSS, period of test 480 hours

### **Technical Data**

Material Housing: nickel-plated zinc die-casting

Lever and bolts: stainless steel

Sealing: NBR Cable gland

Body: nickel-plated brass

Insert: PA

Seal: special elastomer

IP 65

-40°C to +100°C
