

WM BW Blanc wrapping labels are markers of vinyl with an protective transparent foil for marking cables with a pen.

Product description

Application range

- For Cable Marking
- Indoor applications
- The designations can be written with a pencil, a ballpoint, pen, or other marker on the white writing area

Benefits

- Wrapping label with protective foil
- When the cover is applied onto the cable, the transparent foil covers the writing area, thus protecting it against abrasion, humidity, oil and light solvents.
- Easy to label
