

FLEXIMARK® LCK wrapping labels are markers of vinyl with an protective transparent foil for marking cables with a laser printer. The protection foil protects the text from abrasion and solvents.

- LCK 32 YE contained in FLEXIMARK® sample bag (article number M3251010)

## Product description

### Application range

- For Cable Marking
- Printing with commercial laser printers
- Printing with FLEXIMARK® Software (Download:  
<http://www.lappkabel.com/service/downloadcenter/markingsystem/markings-software.html>)

### Benefits

- Diverse criteria as ageing resistance and chemical resistance are tested by the independent SP Technical Research Institute of Sweden according to SP 2171 Test Method (see selection table A15)
- A transparent foil is wrapped around the cable and pasted over the printed field, that the printing is protected against abrasion and pollution
- Resistant to chemicals, UV-radiation, moisture and some oils

---

## Note

- Insert sheet in manual paper feed compartment
- The use of the cartridges of the printer supplier is recommended
- Optimum printing results from laser printers are achieved with straight sheet feed-in with no deflection over rollers and little heat build-up

## Included

- Perforated DINA 4 sheets

## Technical Data

Info	Halogen-free
Colour delivered	White or yellow
Material	Halogen-free polyester
	Thickness: 0.025 mm
Temperature range	-40°C to +125°C
	Minimum working temperature: +10°C
