

Note

- Insert sheet in manual paper feed compartment
- The use of the cartridges of the printer supplier is recommended
- Optimum printing results from laser printers are achieved with straight sheet feed-in with no deflection over rollers and little heat build-up

Included

- Perforated DIN A 4 sheets

Technical Data

Info	Halogen-free
Colour delivered	White or yellow
Material	Halogen-free polyester
	Thickness: 0.025 mm
Temperature range	-40°C to +125°C
	Minimum working temperature: +10°C
