

FLEXIMARK® LB Labels are self-adhesive markers for component marking in the electrical industry (e.g. marking cabinets).

- Sample labels are available upon request

Product description

Application range

- For component marking e.g. for marking cabinets
- Printing with commercial laser printers
- Printing with FLEXIMARK® Software (Download: <http://www.lappkabel.com/service/downloadcenter/markingsystem/markings-software.html>)

Benefits

- Self-adhesive labels made from polyester film for laser printers
- Rectangular shape
- Resistant to chemicals, UV-radiation, moisture and some oils

Note

- Insert sheet in manual paper feed compartment

- The use of the cartridges of the printer supplier is recommended
- Optimum printing results from laser printers are achieved with straight sheet feed-in with no deflection over rollers and little heat build-up
