## **FLEXIMARK® TA foam Component marking**

FLEXIMARK® Labels are markers made of polyester foam and are an inexpensive alternative for engraved plastic markers for component marking in the electrical industry (e.g. marking cabinets).

• Contained in FLEXIMARK® sample bag (article number M3251010)

# **Product description**

## **Application range**

- For component and cabinet identification, CE marking and logotypes
- Components in switch cabinet construction
- Information signs etc.
- Can be printed with the FLEXIMARK® thermal transfer printer as CAB A4+M and EOS4
- Printing with FLEXIMARK® Software (Download: http://www.lappkabel.com/service/downloadcenter/markingsystem/marking-software.html)

#### **Benefits**

- · Cost-efficient alternative to traditionally used engraved plastic signs
- Self-adhesive on many surfaces
- Good UV-resistance
