

Measuring Equipment Set for wavelengths 660/850nm; Suitable for the measurement of assembled POF and PCF systems; Measuring Equipment Set for different wave lengths and connector types. Connector type and wavelength is defined by interchangeable adapter system

Product description

Benefits

- Measuring Equipment Set for wavelengths 660/850nm
- Suitable for the measurement of assembled POF and PCF systems
- Measuring Equipment Set for different wave lengths and connector types. Connector type and wavelength is defined by interchangeable adapter system

Product features

- The measurement device is supplied without adapters. Please order separately
- Optical Transmitter (TMR):
wavelength dependent on interchangeable adapter
 - 650nm
 - 660nm
 - 850nm (on request)
- Optical Power Meter:
for attenuation measurement of
an assembled POF (PCF) systems
adapted to Optical Transmitter (TMR)
