

Abrasion-resistant PUR control cables, flexible at cold temperatures – screened, halogen-free and flame-retardant

Increased durability under harsh conditions thanks to robust PUR outer sheath; Resistant to contact with many mineral oil-based lubricants, diluted acids, aqueous alkaline solutions and other chemical media; Wide temperature range for applications in harsh climatic environments; Copper braiding screens the cable against electromagnetic interference

- · Suitable for all weather conditions
- · VDE-tested and registered
- EMC compliant copper screening

Product description

Application range

- Industrial machinery and machine tools
- Very suitable for oily wet areas within machinery and production lines that are subject to normal mechanical stress
- · Construction machinery
- · Agricultural equipment
- · For indoor and outdoor use

Benefits

ÖLFLEX® 440 CP

- Increased durability under harsh conditions thanks to robust PUR outer sheath
- Resistant to contact with many mineral oil-based lubricants, diluted acids, aqueous alkaline solutions and other chemical media
- Wide temperature range for applications in harsh climatic environments
- Copper braiding screens the cable against electromagnetic interference

Product Make-up

- Fine-wire, tinned-copper conductor
- · Core insulation: TPE
- · Cores twisted in layers
- Inner sheath made of TPE
- Tinned-copper braiding
- Special polyurethane outer sheath (PUR)
- Sheath colour: silver grey (RAL 7001)

Norm references / Approvals

• VDE reg. no. 6582

Product features

- Resistant to oil and drilling fluids according to IEC 61892-4, Appendix D
- · Abrasion and notch-resistant
- Halogen-free and flame-retardant (IEC 60332-1-2)
- · Resistant to hydrolysis and microbes
- · Flexible at low temperatures
