

Proven all-weather control cables - resistant to a wide range of chemical media

Outstanding weather, ozone and UV resistance together with the wide temperature range enable versatile use for both indoor and outdoor applications; Resistant to contact with plant, animal or synthetic-based organic oils, greases, waxes and the related emulsions; ?Good resistance to ammonia compounds and bio-gases; Good resistance to cold and hot water as well as water-soluble cleaning agents; Well-suited to frequent steam cleaning

- · Excellent weather resistance
- · Good chemical resistance
- · Reduced outer diameter

Product description

Application range

- Machine tool building, medical technology, laundries, car washing equipment, chemical industry, composting plants, sewage works
- · Food and beverage industry, especially for production and processing equipment of milk and meat products
- · Agricultural equipment
- For indoor and outdoor use

Benefits

Outstanding weather, ozone and UV resistance together with the wide temperature range enable versatile
use for both indoor and outdoor applications

ÖLFLEX® ROBUST 210

- Resistant to contact with plant, animal or synthetic-based organic oils, greases, waxes and the related emulsions
- ?Good resistance to ammonia compounds and bio-gases
- Good resistance to cold and hot water as well as water-soluble cleaning agents
- · Well-suited to frequent steam cleaning

Product Make-up

- Fine-wire strand made of bare copper wires
- · Core insulation made of modified PP
- · Cores twisted in layers
- Outer sheath made of special TPE
- · Sheath colour: black

Norm references / Approvals

Based on VDE 0250 / 0285

Product features

- Halogen-free materials
- · Good chemical resistance to ester-based hydraulic fluids
- Ozone, UV and weather-resistant according to EN 50396 and HD 605 S2
- Flexible down to -40°C
- · Number-coded cores
