

PVC-insulated, PVC sheath, single core, approved

Multi-standard approval reduces part varieties and saves costs; Easy to install; Multifunctional application possibilities; Also suitable for mobile outdoor use

• Basic Line for light & ordinary duty in power chain applications

Product description

Application range

- In power chains or moving machine parts
- For internal wiring of electric and electronic equipment in switch cabinets
- This cable can substitute multi-core shielded servo drive cables where space requirements or minimum bending radii cause problems
- Specially designed for power circuits of servomotors driven by frequency converters
- Test systems in the automotive industry, vehicles and stationary fuel cell systems

Benefits

- Multi-standard approval reduces part varieties and saves costs
- · Easy to install
- Multifunctional application possibilities
- · Also suitable for mobile outdoor use

ÖLFLEX® CHAIN 809 SC

Product Make-up

- Fine-wire strand made of bare copper wires
- Core insulation: PVC
- PVC outer sheath, black (RAL 9005)

Norm references / Approvals

- cRU AWM II A/B FT1 UL-AWM-Style 10107
- Based on VDE 0250 / 0285
- For use in power chains: Please comply with the assembly guidelines listed in Appendix T3
- UL File No. E63634

Product features

• Low-adhesive surface

 Flame retardancy: UL/CSA: VW-1, FT1 IEC/EN: 60332-1-2

• Oil-resistant according to DIN EN 50290-2-22 (TM54)

Designed for 2 million alternating bending cycles and travel distances up to 10 meter

Technical Data

Core identification code Conductor stranding

Torsion movement in WTG Minimum bending radius

Nominal voltage

Test voltage Protective conductor

Temperature range

Black or green-yellow, other colours available on request Fine wire according to VDE 0295 Class 5/ IEC 60228

Class 5

TW-0 & TW-1, refer to Appendix T0

Flexing: 10 x outer diameter

Fixed installation: 4 x outer diameter

IEC: 600/1000 V UL & CSA: 600 V

4000 V

G = with PE conductor X = without PE jacket

Flexing: 0°C to +70°C (UL: +90°C)

Fixed installation: -40°C to +70°C (UL: +90°C)
