

Flexible single conductor for grounding and shorting as well as for grounding installation and potential equalisation

Very flexible despite a large cross-section

- Grounding, Shorting prior to field maintenance
- Mechanically highly flexible

Product description

Application range

- Provides protection during repairs
- For earthing in high-voltage power installations of power companies and railway systems
- For earthing devices and potential equalisation on machine parts and EDP systems

Benefits

- Very flexible despite a large cross-section

Product Make-up

- Strands of bare copper wires
- Braiding made of bare copper wires
- PVC-based outer sheath, transparent

Product features

- Flame-retardant according IEC 60332-1-2

Technical Data

Classification

ETIM 5.0 Class-ID: EC000993

Conductor stranding

ETIM 5.0 Class-Description: Single core cable
refer to article table

Minimum bending radius

Flexible use: 12 x outer diameter

Test voltage

2000 V

Temperature range

Flexible use: -5°C to +70°C
