

High tensile strength; For high mechanical stress; Enhanced sealing; Easy to disassemble; 45° and 90° elbow enables optimal assembly

Product description

Application range

- In combination with protective conduit:
- SILVYN® HTDL/EF/OR/HCX/HFX/FG
HIPROJACKET
- Mechanical engineering
- Railway applications

Benefits

- High tensile strength
- For high mechanical stress
- Enhanced sealing
- Easy to disassemble
- 45° and 90° elbow enables optimal assembly

Product Make-up

- PG connection thread
- Hexagonal collar, straight/45° elbow/90° elbow
- Threaded sleeve
- Cap nut

Note

- SILVYN® AMG 7/ 9/1 /11/1 without UL/CSA approval

Technical Data

Material

Body: nickel-plated brass

Sealing: polyamide

O-ring: NBR

Protection rating

IP 67

Temperature range

-45°C to +105°C
