

45° elbow enables best assembling; High tensile strength; For high mechanical stress; Enhanced sealing; Easy to disassemble

## Product description

### Application range

- In combination with protective conduit:
- SILVYN® HTDL/EF/OR/HCX/HFX/FG HIPROJACKET
- Mechanical engineering
- Railway applications

### Benefits

- 45° elbow enables best assembling
- High tensile strength
- For high mechanical stress
- Enhanced sealing
- Easy to disassemble

### Product Make-up

- Metric connection thread
- 45° elbow, hexagonal collar
- Threaded sleeve
- Cap nut

## Technical Data

Material

Body: nickel-plated brass

Sealing: polyamide

O-ring: NBR

Protection rating

IP 67

Temperature range

-45°C to +105°C
