

High flame-retardance and self-extinguishing in accordance with UL 94V-0; Protects against liquids; High crush-resistance; Suitable for outdoor use and direct burial; High mechanical resistance

Product description

Application range

- Public utilities
- Mechanical engineering
- Used in areas where liquids are present
- Applications with high mechanical stress
- Outdoors

Benefits

- High flame-retardance and self-extinguishing in accordance with UL 94V-0
- Protects against liquids
- High crush-resistance
- Suitable for outdoor use and direct burial
- High mechanical resistance

Product Make-up

- Spirally-wound metal protective conduit with roughened profile
- Plastic outer sheath

Note

- Size 63 available on request

Product features

- Halogen-free
- low smoke
- Low toxicity

Technical Data

Norm references / Approvals

Colour delivered

Material

Temperature range

IEC EN 61386-23

Black (RAL 9005), UV-resistant

Inner conduit: steel, galvanised

Outer sheath: plastic, halogen-free

Fire behaviour according to UL 94V-0

-25°C to +90°C
