

Easy installation; Faster, easier screen contact; Optimum cable and conduit strain relief; Maximum cable sealing; Wide clamping range

- Conduit gland with the innovative BRUSH solution
- Optimum 360° screen contact

Product description

Application range

- Mechanical engineering
- Plant engineering
- Heavy industry
- In EMC-sensitive environments

Benefits

- Easy installation
- Faster, easier screen contact
- Optimum cable and conduit strain relief
- Maximum cable sealing
- Wide clamping range

Note

- For suitable accessories, refer to SKINTOP® metric accessories

Product features

- Combination of SILVYN® and SKINTOP®

Technical Data

Material

Basis type:

Body: nickel-plated brass

Conduit connector seal: CR/NBR

Tube seal: TPE

EMC brush: brass

Protection rating

Cable: IP 68

Conduit:

IP 40 with SILVYN® AS, EDU-AS, EMC AS-CU

IP 54 with SILVYN® FPS, FPS-EDU, FD-PU, AS-P

Temperature range

-30°C to +100°C
