

Fast assembly; Easy to disassemble; High mechanical strength; Conduit retained by rib; No loose parts

Product description

Application range

- In combination with protective conduit:
- SILVYN® FPAS
- Fastening of conduits on machine walls for all applications

Benefits

- Fast assembly
- Easy to disassemble
- High mechanical strength
- Conduit retained by rib
- No loose parts

Product Make-up

- One-piece conduit holder with borehole for fixation

Note

- UV-resistant and weather-resistant

Product features

- Removeable with a screwdriver
- One-piece conduit holder
