

Fast assembly; Easy to disassemble; High tensile strength; Conduit retained by rib; No loose parts

Product description

Application range

- In combination with protective conduit:
- SILVYN® SPLIT
- Fastening of conduits on machine walls for all applications

Benefits

- Fast assembly
- Easy to disassemble
- High tensile strength
- Conduit retained by rib
- No loose parts

Note

- UV-resistant and weather-resistant

Product features

- One-piece conduit holder
