

Resistant to grease, cooling agents and oils, especially ASTM2 testing oil; Easy assembly of cables and wires; Bendable; Crush-resistant; A fully insulated system when used in combination with SILVYN® MPC/MPC-M

## Product description

### Application range

- Mechanical engineering
- Machine tools
- Vending machine construction
- Applications with strong chemical influences

### Benefits

- Resistant to grease, cooling agents and oils, especially ASTM2 testing oil
- Easy assembly of cables and wires
- Bendable
- Crush-resistant
- A fully insulated system when used in combination with SILVYN® MPC/MPC-M

### Product Make-up

- Integrated hard PVC spiral

- Special soft PVC sheath

## Norm references / Approvals

- UL FILENUMBER E308201

## Product features

- Oil-resistant
- Flexible
- Smooth inner wall
- Dimensionally stable

## Technical Data

Approvals
