

Can be cut without the need for a thermo-cutting tool; Cut into length without frizzle on the conduit's end; Abrasion protection; Simple, fast cable bundling; Protection against dust

## Product description

### Application range

- Easy cable protection
- Additional insulation
- Bundling and guiding of cables and wires
- Low rodent-protection

### Benefits

- Can be cut without the need for a thermo-cutting tool
- Cut into length without frizzle on the conduit's end
- Abrasion protection
- Simple, fast cable bundling
- Protection against dust

### Product Make-up

- Polyamide 6.6 - halogen-free

## Product features

- Abrasion-resistant
- Flexible
- Can be cut at cold temperatures
