

Additional abrasion protection for critical areas; Cut into length without frizzle on the conduit's end; Simple, fast cable bundling; Protection against dust

Product description

Application range

- Easy cable protection
- Additional insulation
- Bundling and guiding of cables and wires
- Low rodent-protection

Benefits

- Additional abrasion protection for critical areas
- Cut into length without frizzle on the conduit's end
- Simple, fast cable bundling
- Protection against dust

Product Make-up

- Polyester - PET with shrinkable Polyolefin fibres

Product features

- Abrasion-resistant
- Flexible
- Shrinkable
- Shrinking ratio: 2:1
- Maximum length lost after shrinkage is less than 15 %

Technical Data

On request

Note

Colour delivered

Material

Temperature range

Bulk containers on rolls

No dielectric strength

Self-extinguishing according to DIN 75200/FMVSS302 and DIN5510

Black (RAL 9005), UV-resistant

Polyamide 6.6 - halogen-free

-55°C to +125°C
