

Conduit gland with high tensile strength for plastic conduits

Product description

Application range

- In combination with protective conduit:
- SILVYN® SI
- SILVYN® SP
- SILVYN® SP-PU

Benefits

- Conduit gland with high tensile strength for plastic conduits

Product Make-up

- Metric connection thread
- Conduit entry with special grip profile

Note

- Necessary conduit clamp SILVYN® SCH

Product features

- High-tensile
- Robust
- Compact design

Technical Data

Material

Body: nickel-plated brass

O-ring: NBR

Temperature range

-20°C to +80°C
