

Conduit gland with high tensile strength for plastic conduits; High-tensile cable protection

Product description

Application range

- In combination with protective conduit:
- SILVYN® SI
- SILVYN® SP
- SILVYN® SP-PU

Benefits

- Conduit gland with high tensile strength for plastic conduits
- High-tensile cable protection

Product Make-up

- PG connection thread
- Integrated cable gland
- Conduit entry with special grip profile

Note

- Necessary conduit clamp SILVYN® SCH

Product features

- High-tensile
- Robust
- Compact design
- Cable strain relief
- Cable sealing

Technical Data

Material

Body: nickel-plated brass

Incised sealing ring: CR

O-ring: NBR

Temperature range

-20°C to +80°C
