

Time-saving installation; High packing density; Strain relief closes automatically when the cable is pushed through; Each individual cable can be easily detached and replaced with the use of a spring clamp during repairs, maintenance or upgrades

Product description

Application range

- Housing opening for connecting sensor/actuator cables and bus cables.

Benefits

- Time-saving installation
- High packing density
- Strain relief closes automatically when the cable is pushed through
- Each individual cable can be easily detached and replaced with the use of a spring clamp during repairs, maintenance or upgrades

Note

- Cable installation is only possible without pre-assembled connectors

Included

- Included: blind plugs, for use on unused sockets

Technical Data

Classification

ETIM 5.0 Class-ID: EC002062

Material

ETIM 5.0 Class-Description: sensor-actuator connector

Flange: PA 6.6

Protection rating

Seal: SBR/NBR 45

IP 55
